

# ISO Certification

---

The first and only polyethylene manufacturer to achieve ISO 9001:2015 certification.

ISO 9001 is the original quality management standard and the world's most widely-recognized quality management system certification. Attaining ISO 9001:2015 certification isn't a one-time achievement; it's a high bar we have to continually meet.

To continue to earn this distinction, we must continually prove—and improve—our capabilities to provide products and services that meet and exceed customer expectations.

Our entire staff monitors each individual stage of our manufacturing process for errors and areas for improvement, instead of just inspecting the final product.

Each tank we produce has its own quality control and routing card that links the product back to its manufacture date, raw material lot numbers, and processing times. This level of traceability is critical, especially for government-regulated bulk chemical storage.

## **INTERNATIONAL ORGANIZATION FOR STANDARDIZATION (ISO)**

ISO is a family of standards for quality management systems. The organization audits engineering and manufacturing processes for effectiveness and continuous improvement.

## Certificate of Registration

The Management System of:

### Assmann Corporation of America

**300 N Taylor Road, Garrett, IN 46738, United States**

Refer to Attachment to Certificate of Registration dated 28 July 2023 for additional certified sites.

Operates a

### Quality Management System

Which complies with the requirements of

### ISO 9001:2015

For the following scope of certification

### Design and Manufacturing of Rotational Molded Polyethylene Bulk Storage Tanks and Custom Molded Products

Originally certified against ISO 9001 on 25 March 2014

**EA Code: 14**

**Certificate of Registration No: US-10030-QMS**

Initial Certification Date:	28 July 2023
Current Certification Date:	28 July 2023
Certificate Issue Date:	31 July 2023
Certificate Expiry Date:	24 March 2026
